Company Presentation

NASTO INXHINIERING was established in 2008 with the aim to satisfy the Albanian market needs for new Oil & Gas installations, depots etc.

In response to these requirements NASTO INXHINIERING was conceived as an engineering company specialized in design, prefabrication, installation and maintenance of Oil & Gas storage facilities. In this framework, the company set up its own workshop for prefabricating parts of tanks, pipes and welded constructions.

Also, to ensure the quality of the whole cycle, the Department of Non Destructive Testing (NDT) was set immediately after the registration of the company.

During its road, NASTO INXHINIERING has grown together with its clients and has made great treasure of experiences from cooperating with major international companies such as Paresa SpA, Walter Tosto SpA, A.Hak B.V, Ansaldo Energia and so on.

At present, NASTO INXHINIERING offers its services to important customers such as La Petrolifera ItaloAlbanese SpA (as main contractor), Bankers Petroleum L.T.D (as direct contractor), French company Spiecapag SA (as a subcontractor) etc.

Because of the limited market in Albania, the company is looking to expand its activity through cooperation with foreign partners for the production of welded constructions.

Obvious advantages for foreign partners are the lower labor costs for the same quality, easy access and the geographic position of the workshop, the connection with the ports and airports, especially with Italy and Greece. Also, welders and pipe fitters are well-trained and have a lot of experience in the Italian yards.

WORKSHOP

Location:

Workshop is located at the exit of the city of Fier, near the national road connecting Fier to Vlorë. Right in front of ex-Azotik factory, district of Driza, Fier.

Address: Rruga Unaza Nuredin Aliu (Ish Azotiku) Lagja Drize, Fier Albania

Coordinates: [40°42'21”N 19°32'47”E](#)

Workshop description

Workshop consist of a shed of 750m2 equipped with a bridge crane.

Equipment:

- Welding machine “Philips” MMA TIG 400Amp
- Welding machine “Esab” MMA TIG 400Amp
- Welding machine “LEA” MMA 400Amp
- Welding machine “ARC” MMA 315Amp
- Welding machine “Fimer” MMA 250Amp
- Welding machine “Lea” MIG 425Amp
- Welding machine “Telwin” MIG 270Amp
- Welding machine “Telwin” MIG 250Amp
- Oxygen group

Workshop personnel:

- Welder, more than 20 year experience 3 units
- Pipe fitter, more than 20 year experience 3 units
- Welder, more than 12 year experience 4 units
- Pipe and mechanical fitter - 2 units.
